

## 2017 NTHU Local Worm Meeting

2017.04.22 at National Tsing Hua University:

<b>9:30-10:00</b>	<b>Registration Main Entrance of Life Science Building II R109</b>	
<b>10:00-10:30</b>	Kuei-Ching Hsiung from Chang Gung University	“Loss of <i>Caenorhabditis elegans</i> W02B12.15, mammalian <i>cisd1</i> , alters iron homeostasis, mitochondrial electron transport complexes and lipid metabolism”
<b>10:30-11:00</b>	Cheng-Rung (Jackie) Huang from National Cheng Kung University	“Cell cycle regulators and diaphanous-related formin are required for the enterohemorrhagic <i>E. coli</i> -induced microvillar actin rearrangement in <i>C. elegans</i> ”
<b>11:00-11:10</b>	Short break	
<b>11:10-11:40</b>	Qmo Chen from Academia Sinica	“The evolutionarily conserved UBX proteins in the regulation of cellular lipid homeostasis”
<b>11:40-12:10</b>	John Liao from National Taiwan University	“MIG-14/Wntless regulates dendrite self-avoidance independent of Wnt signaling”
<b>12:10-13:10</b>	<b>Lunch, Lottery and Leisure Worm chats</b>
